

**WORKSHEET – 2**  
**CLASS – XI COMMERCE**  
**SUBJECT: ECONOMICS**

Que1: What are the main sources of errors in the collection of data?

Que2: Distinguish between primary and secondary data. Which of these two sets of data is more reliable and why?

Que3: What are important types of data as published in ‘census of India’ and ‘reports and publications of NSSO’?

Que4: Describe the questionnaire method of collecting primary data. What precautions must be taken while preparing a questionnaire? Is there any difference between a questionnaire and a schedule?
